PROBATE NOTICE.

IN SUPERIOR COURT, MONO COUNTY, California.

In the matter of the Estate of WILLIAM MILLER, Deceased:

It appearing to the Judge of this Court, by the petition this day presented and filed by Jane Miller, the Administratrix of the Estate of Wm. Miller, deceased, praying for an order of sale of real estate; that it is necessary to sell the whole of the real estate to pay the allowance to the family, and the expenses and charges of Administration;

It is therefore ordered that all persons interested in the estate of said deceased, appear before the said Superior Court on Monday, the 23d day of February, 1880, at 11 o'clock A. M., at the Court Room of said Superior Court, in Bridgeport, of said County, to show cause why an order should not be granted to the said Administratrix to sell all the real estate of the said deceased.

And that a copy of this order be published at least four successive weeks in the BODIE CHRONICLE, a newspaper printed and published in said county.

Signed, R. M. BRIGGS,
Superior Judge.

"IF YOUR'E COMING WHY DON'T YOU COME ALONG?"

'Twas in a field—by an old field school,
Where the boys were romping wild,
I noted one, with a shining face,
And he was but a child:
And as he romped upon the green,
With mind and muscle strong,
Anon he'd cry to the lagging boys:
"Why don't you come along?"

So said the boy, but when he spoke,
The man was in that boy;
And now his voice round Christendom,
Rings like a bell of joy:
For the world has taken up his cry,
And joined him in the song,
Now sung by nations in their march;
"Why don't you come along?"

Come on! pause not! 'tis death to stop,
The tide is at its flood;
For men and things are on their march—
Halt never, if you would:
That cry is in the hearts of men,
Their watch-word, right or wrong;
And nations cry in every tongue,
"Why don't you come along?"

The engine and the telegraph
Proclaim it to the man—
The man takes up the cheering cry,
Which with the boy began.
O'er wood and plain—o'er sea and earth,
It rings in startling song;
'Tis written on the firmament,
"Why don't you come along?"

But yesterday, it took six men
To make a pin; but now
That little boy will do the work:
When done, he'll scarce know how.
Thought follows action—then we pause
To think, no longer strong;
But still keep up the school boy's cry—
"Why don't you come along?"

But yesterday, the reaper's hook
Moved slowly through the grain;
McCormick now, with a storm of hooks
The harvest sweeps amain;
And as he cuts, and cleans, and bags,
He joins the world-wide song;
Old fogie reapers! tarry not—
"Why don't you come along?"

Front! march! halt not! is now the word
To the regiment of men;
Say what you have to say at once—
Go! do it if you can—
Birds sing it—the engine shrieks it;
It's sung the stars among—
All nature breathes the world's great cry:
"Why don't you come along?"

BE KIND.

Some of us know the good a kind deed accomplishes. A word smoothly put in when the heart is sick, a little help bestowed when want presses near by, goes far—far beyond what those support who are able to speak the word, or give this help.

An instance, illustrating this, has just come to our knowledge, A young man, well educated, came to our city to find employment. He sought for it in vain. When his means were about gone and he lay half sick with fever, brought on by anxiety, a friend bade him be of good cheer, and thro' their joint efforts obtained for him a servant's place at a boarding house. He worked there like a brave man, and won the confidence of his employer, though he received only his board, and a few dollars per month.

That friend watched him, and finding him faithful, mentioned the fact to a mercantile gentleman who said at once "bring him to me." This was done, and soon he was more profitably employed. He soon was head clerk. And did he forget his early friend? In the quietest way possible—without a single profession or pretension—he sought out, as soon as he was able, the choicest present, and sent to him as a token of remembered kindness!

When the present was received, our friend, knew not from whom it came. He did not once dream of the poor, homeless youth to whom he had shown only a little kind ness, and, it was not until after repeated inquiries, that he discovered who had sent it. "I have learned a lesson," when he found out the giver, said he, "and that is, always to be more kind, if I can be, under similar circumstances hereafter. If it were thus with all of us;—how much of human misery should we relieve, and what a sum could we add to the amount of positive happiness!

Learn to be kind! The habit of kindness will do, what no other habit can do,—it will bring sweet peace to the mind, and increase, as it is virtuously practised, the only permanent wealth Earth may crave, or Heaven admit.

SHARPER THAN A SERPENT'S TOOTH.—A certain young lady, whose wit is only eclipsed by her beauty, was on the occasion above alluded to, the local point of admiration, and had more satelites than Saturn. Among the number who were only too happy to do her the slightest pleasure was Mr. A., a young man of the modern school of beauty, with a good deal of jewelry and a very little moustache, which by dint of much coaxing and petting, had just made its appearance upon his upper lip, in its most incipient and insipid stages.

The young lady to whom we have referred, to test the gallantry of her admirer, presented him with an almond and requested him to crack it for her. A., only too glad to do her bidding, and searching in vain for any other means, cracked it with his teeth and returned it to his inamorata, when the following short but pointed dialogue ensued:

"You have very sharp teeth," remarked his teaser, dryly.

"Very sharp, I assure you," replied Mr. A. "Would you believe it—when a boy I used to amuse myself by biting off the heads of birds and chickens?"

"Oh, indeed, very probable," replied the lady, "I could have guessed as much; I think I can see some of their down upon your upper lip!"

Our informant adds that young A. struck a bee line for a barber's shop, and has never attempted to cultivate a moustache.

* * *

How many sickly ones wish they were healthy: how many beggarmen wish they were wealthy; how many ugly ones wish they were pretty; how many stupid ones wish they were witty; how many bachelors wish they were married; how many Benedicts wish they had tarried! Single or double, life's full of trouble—riches are stubble, pleasure's a bubble.

* * *

A good old quaker lady, after listening to the extravagant yarns of a storekeeper as long as her patience would allow, said to him, "Friend, what a pity it is a sin to lie, when it seems so necessary to the business!"

* * *

God rules in the market, as he does on the mountain; He has provided eternal laws for society, as He has for the stars or the seas; and it is just as impossible to escape him or his ways in Wall street, or State street, as it is anywhere else.

THE CHRONICLE.

BODIE, MARCH 1, 1880.

SAN FRANCISCO AGENCY.—L. P. Fisher, 21 Merchants' Exchange, is our Agent, and is authorized to contract for advertising, receive subscriptions and make collections on our account.

SALUTATORY.

Having removed our press and material from Alpine county, the BODIE CHRONICLE was issued on November 30th, 1878. Confident that its publication would be a success, we promised the people of Mono county that it would ultimately become a daily. In justice to our friends and ourselves we this day present the DAILY BODIE CHRONICLE to the favorable consideration of our people. In doing so we take occasion to express our indebtedness to the citizens of Mono, and particularly to those of Bodie, for the generous good-will and patronage extended us; these, coupled with untiring industry. have enabled us to redeem our pledges. In offering the DAILY CHRONICLE to the public we have to say, that we shall always respect the rights and feelings of the people, courteously extending to all classes of good people the respect due them. Our columns will be free from offensive personalities; they will give to the public the latest news, telegraphic, general and local; simple records of the events of the day, set down in as few words as possible—as brief as compression will allow; will give good reading matter for the family circle, without a line, which will, in any manner, cater to depraved appetite, or foster the bad passions of mankind, and we intend that it will be a welcome visitor wherever it may be cast.

HOMER DISTRICT.

EDITOR CHRONICLE;—During the past three weeks quite a change has taken place in the general aspect of mining affairs at this point. At the town of Lundy new buildings are going up daily, and the Main street presents a lively business appearance. Lodging houses, stores, saloons, blacksmith shops and residences, some built of logs, and others of canvass, are arranged in rows that make the line of streets that "are to be," and hundreds of lots are fenced, to accommodate the steady increase of population now commencing to arrive. The new saw mill of Hall & Hill is in process of construction, and the last of the machinery arrived several days ago. A large amount of timber, or logs, are cut and ready for the saw. During the last ten days many familiar faces have appeared, of the old pioneers, who discovered and located these mines six months ago, and have wintered at Bodie and other towns that are better provided with the comforts of life. Considerable snow is lying in the valley and some time will elapse before many localities can be reached and worked, that are covered by the best claims. The Pioneer corporations of the District the Homer M. & M. Co., have worked continuously during the winter, and the tunnel through which the mines are being opened, is now nearly 150 feet in length, the face of which is showing a three foot vein of ore that will mill from $50 to $60 per ton, and shows an improvement at present depth over its croppings of 200 per cent. in value. Crosscuts will soon be started to cut the Wasatch vein, 60 feet to the east, and beneath croppings that assay into the thousands. Work on water ditch and mill site has been commenced, and considerable square timber has already been hewn for building purposes.

PIONEER.

OUR WATER WORKS.—About 10 o'clock yesterday afternoon our citizens were startled by a few quick taps of the fire bell, which soon brought everybody to the front to discover the whereabouts of the fire, but all fears were quickly dispelled when it was found that it was only to call the firemen out to give our water works another trial. It was but a few moments before both hose companies and the hook & ladder company were in front of Mollinelli's, and two streams were quickly turned on from the hydrant on the corner of Mill and Main streets. Both streams were formidable and rose from a ⅞ inch nozzel at least 125 feet into the air. After giving that hydrant a fair trial, the hose companies proceeded to the other hydrants and tested them all, showing the entire line of pipes to be in good order, and in case of fire will be able to do good service. Our hose companies are well equipped, and have for members some old veteran firemen, who can get their companies in service with little delay. We consider that our city is now well protected from fire, and why our people should continue to be robbed by the fire insurance companies, is beyond our comprehension.

THE CALIFORNIAN.—We have received the March number of the Californian, and the third of its publication. Its contents are pleasing, interesting and instructive, and the work is one worthy of a liberal patronage at the hands of Californians. Its contents are: Sand, Chap. III; Our relation with Mexico; In the Shade; Shepherd and sheep-herding; First Love and Last; Certain Phases of the Chinese Question; Nine Days on the Summit of Shasta; Lex Scripta; Ireland—Her past and Present Condition; "On with the Dance!" No. 2; One-Poem Poets; Clouded Crystals; Mose, the Black Pioneer; The Wild-Flower Season. Published by the A. Roman Publishing Co., San Francisco.

NEW OFFICERS.—To-day we have a new deal in official life. In town Constable Stebbins and Herrington enter upon their term of office. At the County Seat County Clerk Jeffreys makes way for Ben. Miller, and District Attorney Whitman vacates for W. O. Parker. To the retiring officers and their Deputies, we take the occasion to tender thanks for kind attentions and favors shown us during the past year in connection with their official life. In their retirement they have our best wishes.

Telegraphic.

SAN FRANCISCO, Feb. 29th.—Large attendance at the Sandlot to-day, but otherwise nothing to distinguish the occasion from ordinary Sunday meetings. Assemblyman Braunhart was present under charge of Sergeant-at-arms of the Assembly. Resolutions was adopted condemning the action of Speaker Cowdery and the Assembly with regard to Braunhart, and to the effect that if Braunhart is deprived of his vote his constituents would go to Sacramento in a body and use their influence with the members to prevail upon them not to follow a course that can only end in anarchy. The Ward presidents to-day adopted resolutions from the first club of Eleventh Ward, repudiating any resort to violence and pledging themselves on behalf of the party to suppress any violence, either instigated by Chinese or capitalists, and assist in compelling obedience to the laws.

SEATTLE, Feb 29th.—M. Ramsey was instantly killed at New Castle Coal mine, Thursday night, by falling down a chute, a distance of 200 feet.

EXCHANGES.—We have ever been ready and willing to exchange with all who sought it. On the 6th day of June 1860, we issued the first number of the DAILY SACRAMENTO NEWS, and continued its publication three years. We sent that number to every journal in California and so continued during the entire publication. This entailed a heavy expense, but we cheerfully bore it. But when we removed to Amador and Alpine our exchanges were lessened to a few substantial friends. And we cannot let the occasion of our resumption as a daily pass without paying a just tribute to the kindly feelings of the publishers of the few who for twenty long years, have daily and weekly been welcome visitors to our table. The San Francisco Call, Sacramento Bee, Sacramento (Union) Record Union, San Francisco Spirit of the Times, Amador Ledger, Amador Dispatch and Mountain Messenger, will remain on our exchange list so long as the BODIE CHRONICLE is published by us. With one exception, those that have exchanged with us since our residence in Bodie will remain among our exchanges. We are not desirous of a large list in this respect.

IS THAT SO?—"From the general make-up and typographical appearance of the CHRONICLE, one would judge that about two weeks in a country newspaper would cover the managers' experience in the printing business."

We find the above in the Free Press, having been clipped from the Esmeralda Herald. Our interests have never been in conflict with the Herald; personally we are unknown to its managers and the above remarks are uncalled for and discourteous. As 313 of our white sheets are of more value to us than the Herald's 52 printed sheets, we strike it from our exchange list. Good By!

WHAT WE FOUND.—The proprietors of the Weekly Bodie Chronicle were around town yesterday with a dark lantern trying to discover where the patronage of their daily was coming from.

So says the Free Press.

Here is what the "dark lantern" chap found, and it is not all he picked up in the way of advertisements, either. We commend them, particularly the Undertakers, to the careful perusal of our little friend;

PAY DAY NOTICES.—Maryland Con Co., Gipsy Queen, Booker, Harrington, Tioga, Noonday, Maybell, Concordia, South Bulwer, Belvidere, McClinton, Bodie, and Mono.

UNJUST.—Our neighbor across the street made a very unjust and uncalled for attack on Richard S. Miner, who has had the fortune or misfortune to be retained by the party or parties opposed to the Lundy interests in the townsite of Lundy in Homer District. If the legal profession is to be abused for taking "cases" the members of the Bar would be in hot water about most of their natural lives. Every lawyer is bound to do his best in behalf of his cliant, and we presume Mr. Miner lives up to that rule. As to the merits or demerits of the claim jumpers of Lundy, we know but little, and as the matter will properly come up before proper authorities, it is but preper that there should be no prejudging the case.

IN BAD TASTE.—We notice a the foot of the announcements of balls to be held in this place, the words "objectionable characters will not be admitted." This is in very bad taste, as it gives people at a distance to understand that "objectionable characters" are—or have been —in the habit of attending public parties in Bodie, and if there is any thing that would keep a lady or gentleman from attending such gatherings it would be such an announcement at the foot of a ball advertisement, It is to be expected that disreputable people will not be allowed to attend respectable entertainments without a public announcement of the fact. We hope ball managers will hereafter omit the above quoted words.

BULLION SHIPMENTS.

The following are the bullion shipments for February, as per the books of Wells, Fargo & Co.

Standard	$84 579 26
Bodie	$27 743 86
Noonday	$18 897 31
Total	$131 119 43

The shipments would have been much heavier had it not been that the Standard has been running a low grade ore through the new Standard-Bulwer mill; and the Noonday mill had to let up on account of a brake at the Booker mine, which for a time stopped the supply of water for that mill.

A FINE LAMP.—We have placed in front, and over our office entrance, a large street lamp, with the name of the DAILY BODIE CHRONICLE thereon, that our friends and those wishing to find the CHRONICLE office at night will have no difficulty in doing so. This fine luminary, and the large lamps in our composition room, came from Blanchard's lamp emporium, at Page, Wheaton & Co., where every taste and requirement in the lamp line can be suited.

LARGE FUNERAL.—The funeral of Alex J. McMillan, who died on Saturday, took place yesterday afternoon from Miners' Union Hall. The deceased was highly respected, and the attendance was very large. The procession moved to the cemetery preceded by the Bodie Band playing the "Dead March in Saul."

NOT SO.—The statement of one of our cotemporaries, that Judge Briggs had sent for Judge Hannah, of Inyo county, to come here to hold court for him, has no foundation in fact, Judge Briggs having had no such intention, but intends to go on with the business of his Court.

BULLETIN BOARD.—We have placed in front of our office door a bulletin board upon which a copy of the DAILY CHRONICLE will be placed every morning, so that those who "run may read."

COMING.—The tide has set in, and the multitude are coming to Bodie, and but few are leaving us. Nine passengers arrived by yesterday's stage, and none departed.

CONTRACT LET.—The contract to survey the townsite of Bodie, has been awarded to L. A. Scowden, by Judge Briggs—price $3.400.

QUIET.—A stroll through town last evening gave us no items—the city was uncommonly quiet.

IMPORTANT TO LAND CLAIMANTS.

The following decision of the Bodie Land office will doubtless be read with interest by all interested in taking up public land.

U. S. LAND OFFICE,
Bodie, California,
Feb. 7th, 1880.

In the matter of the claim of the State of California to the N. ½ of N. W. ¼ of Sec. 27. W. ½ of Sec. 28 and N. ½ of N. E. ¼ of Sec. 28. in Township 5 N of Range No. 24 East M. D. M. indemnity School Selections.

Against

Albert Dougherty to the W. ½ of N. W. ¼ and W. ½ of S. W. ¼ of Sec. 28, John W. Wiley, to the N. ½ of the N. E. ¼ of Sec. 28 John A. Dryden to the E. ½ of S. W. ¼ and E. ½. of S. W. ¼ of Sec. 28, and Thomas J. Obenchain to the N. ½ of N. W. ¼ of Sec. 27 in Township No. 5 N. of Range No. 24 E. M. D. M. Preemption Claimants.

Report and joint opinion of the Register and Receiver.

On the 31st day of December 1877, the State of California by its Surveyor General Wm. Minis applied at the United States Land Office at Independence, California, for the tracts of land above described, to wit; the N. ½ of N. W. ¼ of Sec. 27, the W. ½ of Sec. 28 and the N. ½ of N. E. ¼ of Sec. 28 in Township No. 5 North of Range No. 24 East M. D. M. and selected the same for said State of California, under and by virtue of an act of Congress approved February 28th, 1859, and the lists of said lands were certified to as being correct, and that no valid conflicting right was then known to exist, by the then Register of said Land Office, Hon. R. M. Briggs, and was filed and became of Record in said United States Land Office on the 4th day of January, 1878.

The said lands were surveyed by J. G. Thompson, under instructions in 1877 and the Survey approved by the United States through its Surveyor General for the State of California, on the 14th day of May 1879, and the plat of said survey filed in the U. S. Land Office at Bodie, California, on the 12th day of July, 1879. On the 10th day of February, 1878, Albert Dougherty, Thomas J. Obenchain, John W. Wiley and John A. Dryden, filed in this office their several declaratory statements, they, and each of them being possessed of the legal qualifications so to do. Claiming the land herein before described to each of them, on the ground of Preemptioners under the provisions of an Act of Congress approved September 4th 1841, and claiming settlement upon said land, on the 1st day of November, 1877.

As it appears from the papers on file in this case the same Albert Dougherty, Thomas J. Obenchain, John W. Wiley and John A. Dryden, subsequently appeared at this office and offered to make the requisite proofs and to pay for the said lands so-claimed by them.

The then Register of this office refused to receive the money from the said Pre-emptioners in payment for said lands and so refused to allow them to enter the same. Upon these facts so appearing and deemed to be sufficient to constitute a conflict of interests between the State of California, on the one hand and these Pre-emption claimants on the other, the Register and Receiver ordered hearings to be had before them to determine the rights of the said parties in interest, upon proofs to be submitted touching said conflict and did upon the 14th day of March, 1879, issue citations to the several parties in interest, and caused the same to be served upon them and each of them.

In accordance with the requirements made in said citations the several parties in interest did appear either in person or by attorney before the Register and Receiver at Bodie, California, and did make their proofs by question and answer touching this controversy. The testimony of the several parties to this contest and their witnesses having been heard and the attorneys on both sides having submitted and filed their briefs, the case was closed and the Register and Receiver are now asked to make their report and render their joint opinion upon the facts.

It is too late now to express any opinion as to what would have been the proper course to pursue in this office regarding this contest, we can only dispose of it in our best judgment as we now find it before us.

We cannot see that it is necessary for us to discuss the question of the right of the State to make its indemnity School selections from public lands designated for that purpose by law. For we think the right of the State or any right claimed under the State in contests of this nature will depend upon prior existing rights obtained in good faith by Pre-emptioners to agricultural lands. Leaving then for the present the affirmative of this contest, let us take up and first examine its negative side. These Pre-emptioners claims if they have any claim at all must depend upon their compliance with the conditions provided in Section 2259 of the Revised Statutes of the United States. Title 32, ch. 2, and not upon any claim or right that the State may have. They must be citizens of the United States, either native born, or naturalized, or having declared their intention to become naturalized, and over the age of twenty-one years; they must make settlement in person on the lands subject to preemption, they must inhabit nad improve the same, and they must erect a dwelling thereon.

These pre-emptioners claim the right to buy of the United States the lands herein preempted by them. Is the land in controversy of that class of lands that comes within the purview of the Statute as agricultural? If so then has there been a settlement in person on the land sufficient to create the right of preemption. In the case of Stephen D. Hosmer vs Wm. T. Wallace, before the Supreme Court of the United States, 1879, the Court says:

"To create a right of Pre-emption there must be settlement inhabitation and improvement by the pre-emptor."

These are conditions it would seem are indispensible, and from a careful examination of all the testimony taken in this contest we are unable to find evidence of settlement or inhabitation, and but very little evidence of improvement of the land in controversy, giving the Statute the most liberal construction we cannot find that it has been complied with in this respect. In this case the land is mountainous and rocky, and most difficult of ingress and egress, so much so that it was impossible for five or six yoke of oxen to haul nine hundred or a thousand feet of lumber on to the land. At various times it was as appears from the testimony impossible to get on to this land with lumber on account of the great depth of now. On both sides the witnesses testify that the land is chiefly valuable for its timber, and without the timber it is of little value, and would not be desirable land to make a home upon. None of the witnesses testify positively that this land is desirable for agricultural purposes, and some of the pre-emptioners admit that that it was their intention to put up a saw mill and make money out of the timber as that would be the only source from which they could expect to make money from the land.

Some seventeen months elapsed from the time the pre-emption claimants, Albert Dougherty et al. attempted to make settlement on the land, and during all this time the only improvements made upon all this land was a short line of wire fence inclosing a portion of one side of their claims, and cutting some poles and building four pens or cabins, about eight by ten feet, and six or seven feet high with an opening on one side for a door, and covered with shakes. None of the witnesses testify that there were any doors or windows in these cabins—only an opening on one side. In addition to this Albert Dougherty says that he cut some brush away from a spring to get some water.

There was no attempt made at any time to raise agricultural crop of any kind and no effort to prepare the soil for any crop was ever commenced during all this time. From all the facts as far as we are able to understand them, we are of the opinion that the land herein before described and for which this contest was made and hearing ordered, is not agricultural by a fair interpretation of the pre-emption laws; that it is only valuable as timber land, and from its location and character it would not be claimed under the pre-emption laws for the purpose of cultivation and making a home, but for speculative purposes only. And we are further of the opinion that there has been no bona fide settlement or inhabitation or improvement as contemplated in the Statute to entitle the said Albert Dougherty, John W. Wiley, John A. Dryden and Thomas J. Obenchain to maintain their claim to the said land as pre-emptioners, and that they have no valid claim as against the State's application. And it is so ordered.

We have examined the points offered in behalf of these pre-emptioners by Col. Davies, their attorney and do not deem it necessary to express any opinion or make any ruling upon them, because if we are right in our conclusions herein arrived at concerning the rights of these pre-emptioners, as such we do not see how the points submitted in their briefs could make a better case for them even were they all admitted as true. If the State has made any errors in its mode of proceedure to obtain these lands, its errors could in no wise help to create the right of pre-emption in these contestants.

Since last report good progress has been made in the main north drift and west crosscut, without material change to note. Upraire No. 1 was continued to a distance of 50 feet above the 400-foot level, at which point a drift has been started north toward the main shaft, which it will intersect at a depth of 350 feet from the surface, and where rich ore was passed through in sinking the shaft. This drift is now 25 feet, the ledge varying from 3 to 4 feet in width all the way so far in good ore, which will continue to, and indefinitely north of the drift. The joint south drift is now in 63 feet. The average quality of the ore and size of the ledge has greatly improved, and everything is being saved between walls. No new work has yet been started in this direction. The above distance make the present ore body already developed as follows: Distance, Feb. 27th, from the face of north drift from top of upraise to face of joint south drift, 113 feet. It is known to extend to the main shaft, which will make it 150 feet in length. It is not known how much further it will extend north or south. A winze in this ore body from the joint south drift will be next in order, and will be started in the proper time and place.

DUDLEY.

W. F. Holmes, Sup't.

Since last report, and at a distance of 290 feet from the shaft in the main west crosscut, 500 foot level, an immense flow of water was struck. An attempt was made to hold it, with the pumps running 200 strokes per minute. The water so gained that it was found necessary to abandon the 500-foot level, moving the pumps 20 feet up the shaft. The water continued to gain, and the pump then broke, and it was taken to the surface for repairs. When it was placed back in the shaft the water stood 95 feet above the station. Since then, with the pumps running 90 strokes per minute, a gradual gain has been made upon it, the water on Feb. 27th being but 40 feet above the 500-foot station floor. It is believed that this water comes from the hoped-for change of ground, and perhaps from one of the Dudley ledge. The head of the water has evidently been tapped, and it will be but a few days before work will be resumed in the 500-foot level. The flow of water, coming in as it did from the bottom of the crosscut, shows that the new formation, or ledge, whichever it may be, has an easterly pitch.

MCCLINTON.

R. F. Lord, Sup't.

The west crosscut, 500 foot level, being run to cut thr Sharon, Pacific, and known intervening ledges, has been driven 20 feet, passing through seams and bunches of quarts, and has attained a total distance of 312 feet. This crosscut is liable to cut ledges any day, being in interesting ground. On the 675 feet level, the east crosscut has been driven 10 feet, making a total distance from the shaft, 93 feet and from the north drift on the Eshington ledge 61 1-2 feet, at which point the Bulwer ledge was cut, proving the identity of the ledges. The ledge has the characteristics of the upper level, maintaining the same distance from the Eshington, and prospect well. The north drift on the Eshington ledge, 675 level, has attained a distance of 100 feet. Three feet of the ledge next to the foot wall, is much better ore than has been exposed in the mine at any other point. From this fact and other good reasons the winze was started and is now down 21 feet and looks very favorable. Everything about the mine working well.

TIOGA.

C. H. Golding, Sup't.

Since last report we have sunk and timbered shaft 8 feet. Total depth, 794 feet. The rock continues very hard with a slight increase of water, which is now coming in from the quartz seams encountered in shaft, yet not sufficiently strong to retard work. The long-looked for connection with the Syndicate is now fully accomplished. The favorable results of this are many. The ventilation is thorough and complete, the up-cast being in favor of the mine. It will also facilitate the working of the mine in the saving of 522 feet of hoisting or pumping of water, and also a saving in the hoisting and transportation of ore. Our upraise on vein No 3 is now up 131 feet, incline measurement. The vein at this point is about three feet thick, the walls being very regular and is well-defined.

The east crosscut, 620-feet level from the Ralston winze, has been advanced 21 feet during the week, in which have cut a six inch vein of valuable ore. The face of this drift being in favorable ground.

JUPITER.

W. P. Holmes, Sup't.

Since last report all of the pumping machinery has arrived and is being rapidly placed in position. On the 500-foot level, the west crosscut from the main south drift No. 2 in 54 feet. In both places the rock has been the hardest yet encountered in the mine. The former is now showing considerable change, being much softer and working better. In the latter the rock is very hard, but clay seams are coming in and blasts do better execution. The character of the clay seams indicate the near approach of a ledge. Everything about the mine is working well.

BLACKHAWK.

S. B. Ferguson, Sup't.

The shaft is down 670 feet. The rock has been hard for some distance but is now getting softer. There is some water in the shaft, but not troublesome. The formation at the bottom of the shaft, is looking very favorable.

HARRINGTON.

L. A. LaGrange, Sup't.

Work is progressing satisfactorily. The winze is down 107 feet, in vein matter in the bottom. Have a small vein of fine quartz, showing free gold. Superintendent LaGrange yesterday forwarded to the home office a box of very fine specimens.

NEW LOCATIONS.

The following mining locations have been recorded by George Macartney, District Recorder:

None Such—relocation of the Mountain Boy, on the United ledge—K. Barrett.

Queen of them All—adjoining the above—J. Curtis and M. Weber.

Octaeon—discovered in the main east crosscut, 300-level, of the Bodie mine—H. Aug. Whiting.

West Noonday, West Spaulding and Jessie,—on Booker Flat—S. B. Smith and John Hickey.

Gem and Amazon, discovered in crosscut of Oro claim—G. W. Steel.

Tiger, on east side of Bodie Hill, and joining the Eagle lode on the west—G. P. J. Watson.

MILL CREEK.

Superintendent Jones, of the Con Pacific, and Homer M. & M. Co., arrived home on Saturday evening from Mill Creek, where he had been looking after the interests of his company. Mr. Jones reports that times are getting lively in the Homer District, but there is too much snow to do much now in the way of mining. The road is not as bad as has been reported, he having made the trip home in about five and one-half days. The road goes by Mill Creek Station, 18 miles from Bodie and from that station it is only 7 miles to Lundy.

ARRESTED.—A rounder known as "Charly" was arrested last evening by officer Tex on a charge of misdemeanor. He will be examined to-day before Justice Newman.

BAD ROADS.—The Carson stage did not arrive yesterday till near noon. The roads are in a very heavy condition beyond Aurora.

FINE CONFECTIONARY.—Mrs. Swan has opened a confectionary store in Abbot's building, on Main street, between Standard Avenue and Mill street. She intends to keep a fresh supply at all times and at reasonable prices.

THE DAILY.—Those wishing the DAILY BODIE CHRONICLE left at their place of business or residences will please leave their names at W. H. Ellis' News Depot, E. J. Holden, Clarendon House; or this office.

THE CHRONICLE.

BODIE, MARCH 1, 1880.

(The following excellent parody on "The Destruction of Sennacherib" was written by Charles Boynton, while mining on the Mokelumne river, California, during the severe winter of 1859. Some one copied it from the piece of candle-board on which it was originally scrawled, and had it published. We have seen it copied into several papers without the author's name attached, and we recently received an Australia paper, containing it, which was sent to us by an old California friend who went out to that country to prospect Queen Victoria's gold diggings. We therefore publish it, giving the proper credit to the author.)

THE GREENHORNS.

BY CHARLES BOYNTON.

The Greenhorns came down like the wolf on the fold,
To the land that was said to be teeming with gold;
And the gleam of their wash-pans, like comets or stars,
Flashed bright o'er our gulches, our canons and bars.
Like the leaves of the forest when summer is green,
That host in the month of October was seen;
Like leaves of the forest, when Autumn hath blown,
That host in November was scattered and strewn.
For the "Fiend of the Storm" spread his wings on the blast,
And the rain at his bidding came sudden and fast;
And the waters were raised, till each creek was a flood,
And provisions went up—on account of the mud.
And there lay the tools they had bought upon trust—
Each wash-pan and crowbar all covered with rust;
And there lay each Greenhorn coiled up in his tent—
His pork-barrel empty,—his money all spent.
And the victims themselves were quite loud in their wail,
And the merchants who sold upon credit turned pale;
And those who prayed hardest for rain at the first,
Were now by their comrades most bitterly cursed.
In vain they prospected each dreary ravine—
In vain they prospected where no white man had been;
The riches they fondly expected to clasp,
Like the will-o'-the wisp still eluded their grasp.
And some of the Greenhorns resolved upon flight,
And vamosed the ranch in a desperate plight;
While those who succeeded in getting to town,
Confessed themselves DONE most decidedly brown!

To prevent a colt from jumping, pass a good stout surcingle around his body; put on his halter, and have the halter strap long enough to go from his head, between his fore legs, through the surcingle, and back to one of his hind legs. Procure a thill strap and buckle around the leg between the foot and joint; fasten the halter strap in this—shorter or longer, as the obstinacy of the case may require. It is also tip top to keep colts from running where there is likely to be danger from the result. If the thill strap should cause any soreness on the leg, it may be wound with a woolen cloth, and it would be well to change from one leg to the other occassionly. During the Summer and fall I have been practicing on a very unruly colt, and could find nothing that would answer the purpose till I tried the above. He is now as docile as a kitten.

Mrs. Partington expresses her apprehension that the people of the gold regions will bleed to death, as the papers are constantly announcing the opening of another vein.

Sometimes, in musing upon genius in its simpler manifestations, it seems as if the great art of human culture consisted chiefly in preserving the glow and freshness of the heart.

Many men spend an entire lifetime in eager accumulation of the perishable riches of this world, but throw away the priceless pearl of character at the very outset, as though it were dross.

A great poet says that "the mountains stand fixed forever." We know, however, that it is no uncommon thing for them to slope.

There are two classes of disappointed lovers—those who are disappointed before marriage, and the more unhappy ones who are disappointed after it.

Dr. Franklin says that "every little fragment of the day should be saved." Oh, yes, the moment the day breaks, set yourself at once to save the pieces.

BENSONS CAPCINE POROUS PLASTER.

Positively the Best. The m'f'rs. were awarded the highest and only medal given rubber plasters, at both the Centennial and Paris Expositions. Widely and favorably known among physicians as a great improvement on the ordinary porous plaster. Ask any physician in your own locality about it. The valuable qualities of the common porous plaster are in this article increased 10 fold by new and scientific medication. It relieves almost at once and cures where other plasters fail even to relieve. It is without doubt the best remedy ever devised for Lame and Weak Back, Rheumatism, Spinal and Kidney Complaints and all local aches and pains. Avoid Imitations. Sold by all Druggists. Price 25c.
